							Sage					
							Stevia					

Notes on Availability

- Some crops may be available earlier, some later than dates listed above. Similarly, some may not be available though listed above, because of weather, demand, or other circumstances.
- There will be no cruciferous crops (kale, collards, broccoli, cabbage, etc.) this season due to a pest issue. We hope the situation will be mediated by the 2020 growing season.
- To make purchases (outside of the Wednesday on-site market and Saturday market at the West Loop Market) and for other questions, please call Tucker at (440) 420-5140 or e-mail tucker@jmtf.org.
